IUPUI Center for Economic Education
317-274-8100; tcrews@iupui.edu

It's **never** too early to introduce students to economics, and what better, more classroom-friendly way than through kids books! Come discover how exploring the economic content found in nearly all children's books will get your students excited about the economic way of thinking and make them better decision-makers, while at the same time help develop their reading comprehension and listening and speaking skills. Every teacher will take home lots of ready-to-use lessons and at least one of the books featured in each workshop! PGP points and dinner will be provided, too! Space is limited! Sign up today!

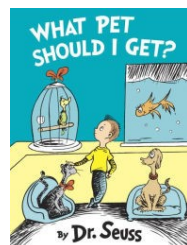

Teaching History and Economics through Reading: Grades 3-5

Make history relevant for your students! Books based on historical events are a perfect way to emphasize that economic and financial literacy concepts like choices, saving, scarcity, specialization, productivity, and entrepreneurship were just as important in the past as they are today.

Hands-on lessons will be demonstrated from books such as *Uncle Jed's Barbershop*, *Ruth and the Green Book*, *A Full Hand*, *Nine for California*, *Dandelions*, *Potato: A Tale from the Great Depression*, and more!

Furry Friends Economics: Grades K-3

This workshop focuses on an engaging way to teach economics and financial literacy to the youngest students...by introducing them to books featuring animals! Your students will learn all about goods and services, opportunity cost, productive resources, and economic wants. The workshop will feature hands-on lesson demonstrations from *Betty Bunny Wants Everything*, *Beatrice's Goat*, *What Pet Should I Get?*, *A New Coat for Anna*, *Clever Cat*, *Fleas*, and *The Three Little Pigs and the Somewhat Bad Wolf*.
