

Full STEAM Ahead!

Integrating Economics Instruction with Science, Technology, Engineering, Art, and Math

A professional development workshop for K-8 teachers

One lucky teacher participant will win a set of Lego Classic® building blocks for their classroom!

**All
Aboard!**

Tuesday, April 4, 2017; 4:00—6:00 p.m.
Mayflower Mill Elementary School Library
200 E 500 S, Lafayette, Indiana 47909

With so much to squeeze into the school day, it can be difficult to stay on track when introducing new concepts to your students. This interactive workshop, sponsored by the Purdue Center for Economic Education, will guide you with creative and highly effective ways to integrate economic concepts into your existing curriculum. Come discover engaging, hands-on activities that your students will enjoy as they learn economic concepts such as profit, loss, budgeting, and productive resources. Participants will complete 2 or 3 STEAM activities (as time permits), and will receive a packet of materials to take home.

This workshop will be led by Gina Boyd, 4th/5th grade high ability teacher at Mayflower Mill Elementary. Gina has served as the PCEE's teacher advocate for three years, and has led a wide variety of workshops on teaching economics to elementary school children. She is a Golden Apple Award winner, and the 2016 recipient of the national John Morton Award for Excellence in the Teaching of Economics at the Elementary School Level.

There is no fee to attend **Full STEAM Ahead**, but advance registration is required. Teachers receive instructional materials and 2 Professional Growth Points, and light refreshments will be served. Don't forget—one participating teacher will win a set of Classic Legos® for their classroom! **Sign-up quickly!** Go to: www.krannert.purdue.edu/centers/pcee and click on "Register for Programs."
